

Experiments 1 & 3

Performance Measurements, Reactivity and Subdivisions

1600 Time Steps of 1600 MTs
on 8x8 Subdivision

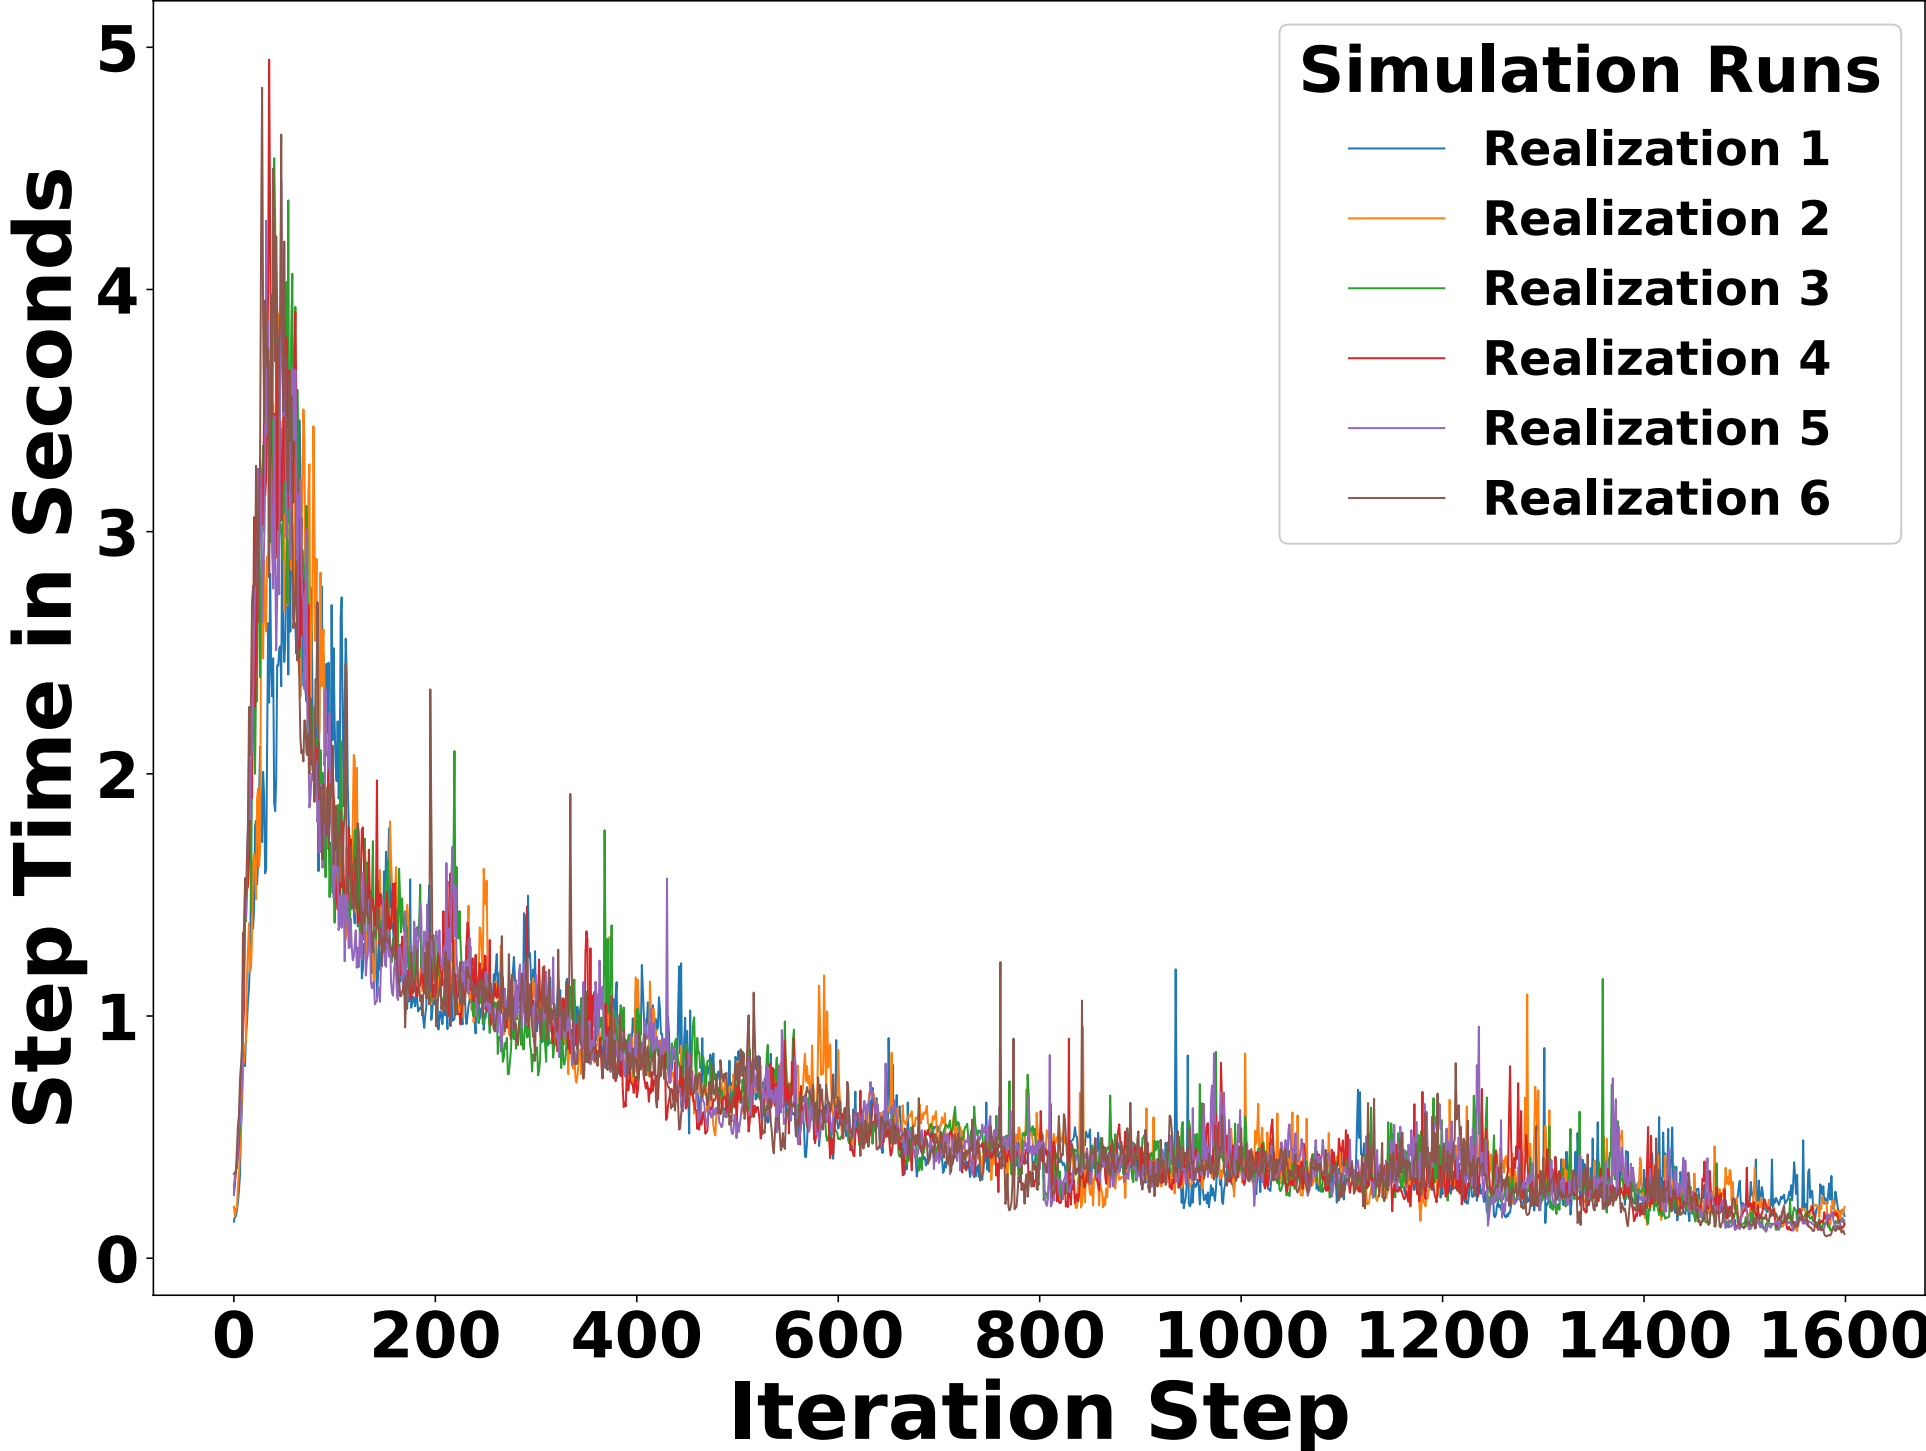

Figure 37: Reactivity analysis plot of crossover simulation from experiment 1.

Performance Comparision of 3200 MTs
on Different Subdivisions

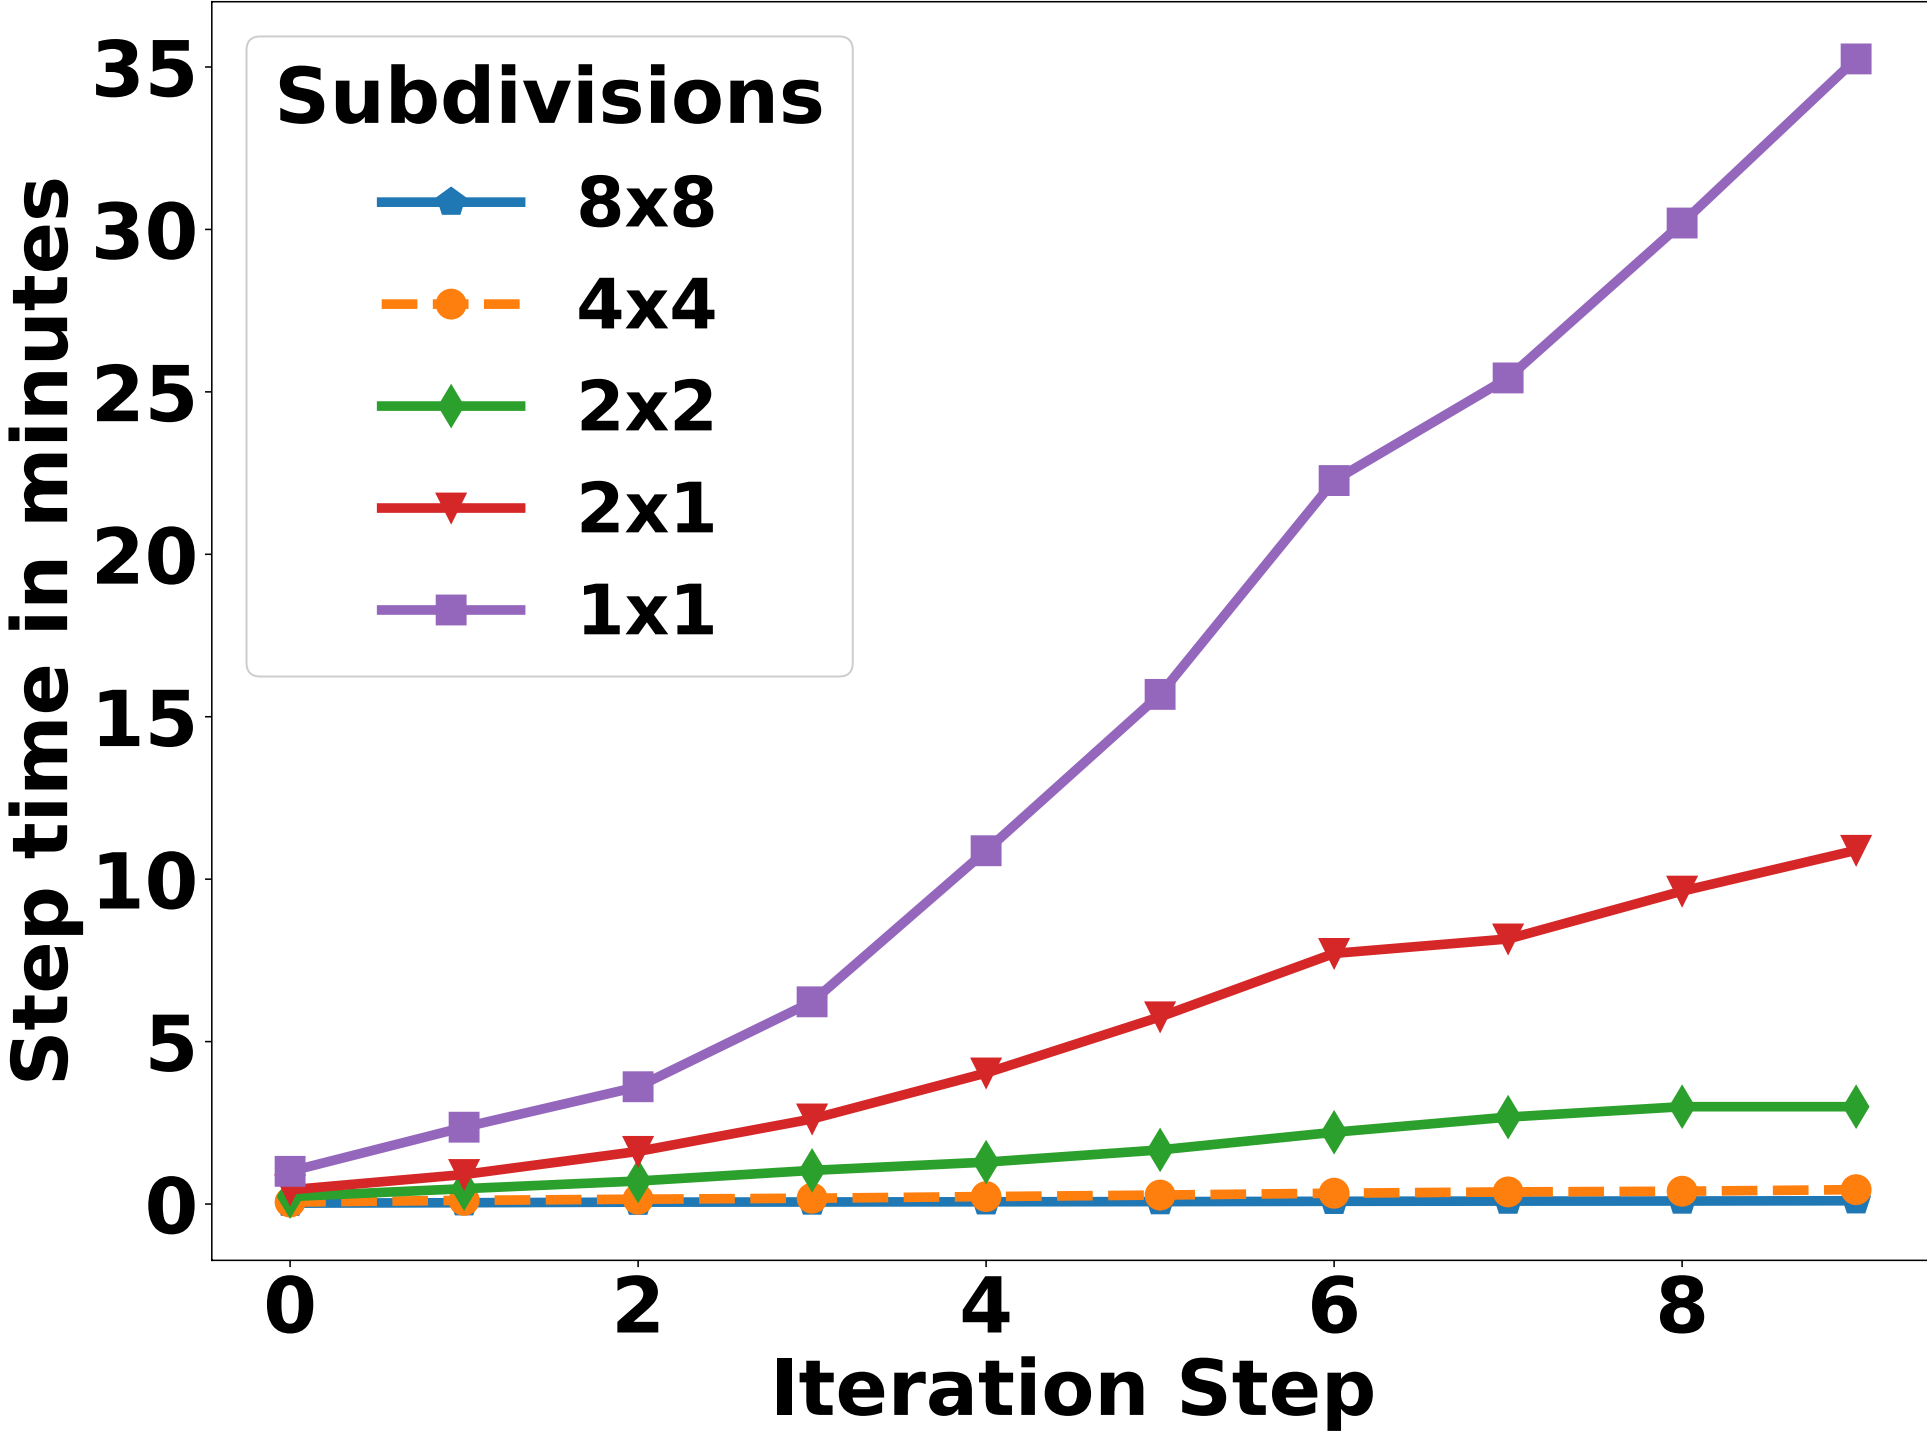

Figure 38: Run time per step in minutes for experiment 3.

The Plant Cell Periclinal Cortical Microtubule Array (PCMA) DGG
